Standby Battery, Airspeed, Altimeter,
and Attitude Indicator

Interior:

9/10

Exterior:

9/10

Additional:

Electroair EIS-6100 Electronic Ignition
System

Kelly Aerospace Standby Alternator

Kelly Aerospace Air Conditioning

Useful load: 1343 lbs

All Specifications Subject To Buyer Verification Upon Inspection

The image shows the cockpit of a 2017 Cessna T206H. The primary instrument panel consists of two Garmin G1000 displays. The left display shows engine parameters, including RPM, manifold pressure, and oil pressure, along with a synthetic vision display. The right display shows a navigation map with various flight data, including altitude, speed, and heading. Below the displays are two throttle levers with 'STATIONAIR HD' branding. The center console features several analog gauges, including a tachometer, a manifold pressure gauge, and a fuel gauge. The bottom of the cockpit is equipped with various switches and controls, including a master battery disconnect switch, a fuel selector, and a mixture control. The overall layout is modern and functional, typical of a light aircraft from this era.
